## PROFESSIONAL SUMMARY

Motivated MCA graduate with 3 years of experience in software testing, specializing in Selenium WebDriver (Java), TestNG, Maven, and POM frameworks. Proven track record in improving test coverage, reducing regression cycles, and enhancing product quality in Agile/Scrum environments. Strong knowledge of SDLC/STLC, defect tracking, and cross-browser testing.

## EXPERIENCE

### Capgemini Technology Services India Limited (2022-2025)

- Designed and executed manual & automated test cases, ensuring maximum coverage.
- Developed and maintained Java-Selenium-TestNG scripts, reducing regression effort.
- Performed smoke, sanity & regression testing; collaborated to resolve defects quickly.
- Created and maintained precise test documentation aligned with project requirements.

## PROJECTS

### AT&T

- Led integration, system testing, and validation of firmware/software for high performance.
- Coordinated firmware upgrade/downgrade activities, minimizing downtime and ensuring quality.
- Developed sanity test cases, improving defect detection and product reliability.
- Implemented BIST test cases to enhance automated diagnostics and system verification.

### E-Commerce Automation Framework – Capstone Project

- Built an e-commerce automation framework using Selenium (Java) with POM & Page Factory.
- Created TestNG test cases with data-driven testing (Apache POI), groups & parallel runs.
- Integrated Extent Reports with screenshots for detailed reporting and defect tracking.
- Applied waits and advanced locators for stable and reliable automation execution.
- Enhanced test coverage by automating critical user workflows from registration to checkout.

## TECHNICAL SKILLS

- Automation Testing
- Manual Testing
- Java
- Selenium WebDriver
- TestNG
- Maven
- JUnit
- JIRA
- SQL
- Data-Driven Testing
- Apache POI
- Extent Reports
- Log4j
- API Testing(Postman).

## EDUCATION

### Master of Computer Applications (MCA) 2018 - 2021

Dayananda Sagar Institutions, Bangalore

### Bachelor of Computer Applications (BCA) 2015 - 2018

Vijayanagara College, Hosapete

## TRAINING & CERTIFICATIONS

### Selenium with Java Automation Testing Certification

Besant Technologies, Marathahalli, Bangalore

### Training Coverage:

Java Programming, OOPS Concepts, Collections Framework, Selenium WebDriver, TestNG, Page Object Model, Maven, Git Version Control, Data-Driven Testing, Automation Framework Design, and Real-time Project Implementation
